

Using Paymium, European merchants can now accept Euro payments through the Bitcoin network

PRESS RELEASE

Date: Monday, June 30th 2014 - Paris, France

Release date: for immediate release

Accepting Bitcoin payments is now easier than ever. [Paymium](#) is delighted to introduce today its [merchant solution](#) to accept payments in Bitcoin with instant conversion to Euro, **without fee**, for every European merchant.

Using this easy-to-setup, easy-to-use solution, merchants can now accept payments with Bitcoin, **without currency exchange rate risk**: amounts are displayed in Euro and paid with Bitcoins; the Bitcoin payment is then instantly converted to Euro.

In other words, if a product is sold 100€ and paid with Bitcoin using *Paymium*, the merchant receives 100€. Funds are instantly available and can be withdrawn with no rolling reserve.

Live example: hand-picked premium Champagne retailer [MonChampagne.net](#) accepts payments with Bitcoin using *Paymium*¹.

How to accept Bitcoin payments with *Paymium*:

1. [Sign-up to a Merchant / Corporate account](#)
2. Add Bitcoin payments to your website ([with our plugins or API](#))
3. Tell your customers you now accept Bitcoin, and enjoy your first sales using *Paymium*!

Price & features – Accept Bitcoin payments with *Paymium*:

- Transaction fee : **0%**
- Trial period : **FREE until January 1, 2015**
- Subscription package: **19,90€ per month** (starting in 2015 - cancel at any time without penalties or fees)

- Zero fraud, zero chargeback: Bitcoin transactions cannot be reversed by a third party.
- No delay, no rolling balance: Euro / Bitcoin funds immediately available after payment
- Global reach: worldwide payment gateway
- Works with any website ([WooCommerce](#) and [Prestashop](#) ecommerce plugins already available, other ecommerce solutions plugins coming soon)
- Secure API available: <https://github.com/Paymium/api-documentation>

About Paymium:

Founded in 2011, Paymium is pioneering in the European Bitcoin landscape, with 60 000 European customers including 5 000 active traders ².

Paymium SAS is the company behind the [Paymium](#) Bitcoin exchange (previously known as *Bitcoin-Central* ³), offering **a secure, reliable, high-performance trading platform in compliance with European regulations**. Each customer account is linked to a payment account held for them by a licensed Payment Institution partner: customers send euros to an account owned by them to purchase bitcoins. Customers withdraw requests are transmitted directly to our Payment Institution partner.

[Paymium website](#) – [Blog](#) – [@Bitcoin_Central](#) (6600) – [@paymium](#) (800) – [Facebook](#) (700) – [Instagram](#)

¹ Many thanks to [MonChampagne.net](#), our first merchant customer

² active trader: has executed a trading order in the last 100 days

³ Bitcoin-Central change its name to Paymium on June 23rd 2014 - [Announcement](#)
